Units

What is a unit?
– Measure of credit awarded for successful completion of a course
– 1 unit is approximately 3 hours of work per week both in and out of class

How many do we need?
– 180 or 184 minimum units to graduate (determined by General Education)
  • Roughly 1/3 major, 1/3 General Education, 1/3 electives
– 60 units must be Upper Division
– Need minimum of 12 units per quarter
– Need to average 15 units per quarter for graduation in four years

Course Numbering
1-99 Lower Division
100-199 Upper Division
200+ Graduate

Class Standing
Freshman: 0-45
Sophomore: 45.1-89.9
Junior: 90-134.9
Senior: 135 +
How Many Units? Which Classes to Take?

The College of Letters & Science recommends 12-14 units for an entering student.

Here are some things to consider when making your schedule:

• First quarter is a time to explore. You have plenty of time to fulfill your graduation requirements.
• Try for a range of courses, some requirements and some electives.
• Many students do not take courses for their major until their 2nd or 3rd quarter (excluding science/engineering/fine arts majors).
• If working more than 10-12 hours/week, consider fewer units.
• Consider the transition both academically and personally.
• Follow the advice of any professional advisors (athletics, EOP, Engineering, Creative Studies, DSP, etc.).
