

UCSB Upward Bound Program

Now Hiring Summer Instructors

The goal of Upward Bound is to assist low-income and first-generation college bound high school students in preparing for post-secondary education. The summer program provides participants the opportunity to experience university life while still in high school. Students live in Tropicana Gardens and take high school level classes during the program. Please visit our website at <http://www.sa.ucsb.edu/upwardbound/> for a Summer Instructor application or pick one up from the UB office in Room 1201 (SAASB).

www.sa.ucsb.edu/upwardbound
