COVID-19 Mitigation – Testing Centers

**Weekly Nucleic Acid Amplification Tests**
- Offered free of charge to all students, staff, and faculty
- Two testing sites: Loma Pelona (Manzanita Village) and Linda Vista (Santa Catalina)
- Large capacity – up to 1,000 per day, per site
- Multiple labs processing tests, including on-campus lab

**Testing Center Safety**
- Testing completed outside
- Staff fully trained and in full PPE
- Rapid throughput - average time is less than 3 minutes

</tbody>
</table>

*Test count for positivity rate does not include tests that resulted inconclusive

**Case Management and Investigation**
- Each case received a phone call and isolation support
- Average of 3 contacts per case (0-27)
- UCSB affiliated contacts supported through quarantine
COVID-19 Mitigation - Results

Consistent with patterns in SB County and in California

COVID-19 Mitigation - Going Forward

Policy currently evolving – points of consideration:
• Vaccination rates
• Targeted testing
• Non-Pharmacologic Interventions (NPIs)
  • Masking
  • Distancing

In cooperation with local and state health departments and the University of California.
